Dewey.Bushaw@Styledev.com | Cell: (949) 547-7762

Objective

I want to be a part of a company where I can flourish and whose passion and drive match mine to create sites that are not only functional but deliver with style.

Education

Bachelor of Science in Business with an emphasis in Marketing, June 2005
Sonoma State University, Rohnert Park, CA 94928

C.S. 59R - Web App Ruby on Rails (grade A)
Sierra College Online, Rocklin, CA 95677

Experience

Owner, March 2005 to Present

Styledev.com Web Design, 37 Brownstone Way, Aliso Viejo, CA 92656

- I design, develop and implement websites and applications for political/electoral groups, non-profits, and small businesses.
- Worked as a consultant in the 2008 Presidential Election in the areas of application design and development. Created a Ruby on Rails application on the fly to scour twitter for related tweets on the topic of voter fraud.

Web Designer, March 2010 to Present

US Real Estate Services, 25391 Commercentre Dr., Lake Forest, CA 92630

- Responsible for designing the user interface for the new .NET platform that will replace the current antiquated system.
- Design a unique map based interface for listing properties.
- Document all design efforts and coding practices in a uniformed style guide.
- Create robust icons to be used in the application.
- Design e-mail templates for marketing blasts.

Analyst, September 2006 to March 2010

Quiksilver Americas, 5600 Argosy Circle #300, Huntington Beach, CA 92649

- Implemented and administer the corporate intranet using Microsoft SharePoint.
- Build Wordpress themes for internal blogs.
- Ensure compliance for Sarbanes Oxley (SOX), Payment Card Industry (PCI), Electronic Data Reference Model (EDRM), and Safe Harbor.
- Create and manage policies and procedural documents for the IT Department.

Help Desk Assistant III 2002-2005

Sonoma State University, 1801 E. Cotati Ave., Rohnert Park, CA 94928

- Provide up to level three technical support including hardware repair.
- Help setup computer networks and labs.
- Repair viruses and remove malware from staff, faculty and student computers.
- Digitized the school operator directory using File Maker Pro.
- Created an internal Help Desk website to hold all technical procedures.

Accomplishments

- Expanded on John Resig's plugin Live Search and hosted on GitHub (<http://github.com/styledev/jquery.multiplelivesearch.js>)
